Systems
Cemplaster Fiberstucco

Master Wall Inc. approves the use of PROSOCO R-GUARD® Cat 5® for use with our Cemplaster Fiberstucco systems and will provide a single-source warranty for the application. Cat 5® is an easy to use air and water barrier with the following advantages:

- Solvent free. Isocyanate free. Phthalate free.
- Complies with all VOC regulations.
- Silane functional polymer provides superior long term adhesion, crack bridging and weathering characteristics. Self seals fastener penetrations.
- Bonds to most common building materials without priming to produce a durable, weatherproof membrane which will not tear or displace when subjected to wind loads during construction. Easy to repair if damaged.
- Will not tear or lose effectiveness when exposed to weather during construction.
- May be fully exposed to UV and weather for up to 12 months.
- Cat 5® comes in a rain screen version for ventilated rain screen applications.
- Service temperature from -75°F to 300°F (-59°C to 149°C).
- Single component – saves time.
- Easy roller application in all climates.
- Bonds and cures in wet weather and on damp substrates.
- No shrinkage. No staining. No yellowing.
- Breathable. Allows damp surfaces to dry.
- Will not support mold growth.
- Stops penetration of air and water under normal and extreme weather conditions.

Cat 5® and R-GUARD are trade names of PROSOCO and used with permission
