

# Silicone Coat Additive

To **finish** strong you sometimes need a finish with increased water repellence. Silicone Coat is a factory added siloxane that helps keep buildings cleaner with a protective barrier. Water and dirt won't stick to the silicone which helps keep buildings cleaner.

- **Factory added silicone helps rinse dirt away during rains.**
- **Available in all textures of Superior and Superior Elastomeric Plus Finishes.**
- **Silicone Coat is does not reduce the acrylic polymer levels in the finish.**
- **Improves resistance to the affects of mold, mildew and algae.**
- **Vapor Permeable.**
- **Can be tinted any color.**
- **Does not affect workability, application or performance of the finishes.**
